

Memorial Service Checklist for Family Directed Ceremony

In an effort to guide our client families, we have developed this checklist for those coordinating and directing their own memorial service or ceremony. While this list does not cover every situation, it should provide general guidance to ensue that the important items have been addressed prior to the service taking place. If you have specific situations which are not covered in this list, please contact our office and speak with one of our family service counselors. We are always available to either answer your questions or assist in coordinating the service.
